

## Paine's Celery Compound CURES RHEUMATISM.

Rheumatism, which does its terrible work in the muscles, joints, and tissues, is caused by uric acid which gathers in the blood. To get rid of this poisonous acid which produces the irritations, pains, agonies, inflammations, and swellings peculiar to rheumatism, Paine's Celery Compound should be used without delay. No other medicine gives such prompt, cheering, and happy results. It is the only medicine that prevents a return of the dreaded disease. Paine's Celery Compound braces the nerves, the blood is quickly cleared of all irritating poisons, tissue and muscle are built up, and the digestive organs perfectly toned. Do not treat with indifference the slightest rheumatic symptoms; the early use of Paine's Celery Compound will save you weeks and months of suffering. Mr. S. D. Conway, St. Louis, Mo., was permanently cured by Paine's Celery Compound after repeated failures with other medicines and physicians; he says:—

"I am 64 years of age, and have lived in St. Louis 27 years, and all this time with the exception of three years, I have served in the Engineers' Department as Inspector. Last winter I contracted rheumatism and was laid up. I tried all remedies and doctors, but all failed until I struck Paine's Celery Compound, which has made a permanent cure in my case. I have recommended it to many, and they have used it with the same result."

**Saloons Declared to be the Greatest Criminal the World Has Known.**

At Washington The National Anti Saloon League adopted the report of the Committee on Resolutions. These pronounced the saloon to be the greatest criminal the world has known. Congress was commended for refusing to repeal the anti-canteen law. The resolutions expressed joy that the saloon had been driven from the United States Capitol building. They also approved the Dooliver and Hepburn bill making intoxicating liquors shipped into a State subject to the laws of the State both before and after delivery.

The Convention adjourned to meet next year at Columbus, Ohio.

The report of Messrs. Conrad and Bonaparte on the charges made by S. W. Tulloch, former cashier of the Washington postoffice, was made public, under instructions from President Roosevelt. The report takes up in detail the charges of improper appointments of subordinates and improper disbursements of funds in the Washington postoffice, and declares that the fraudulent appointments, so far as the papers examined indicate, were due to Perry S. Heath, the former First Assistant Postmaster General, and G. W. Beavers. While naming Heath and Beavers as primarily responsible, the report says the responsibility was shared in some measure by Charles Emory Smith, late Postmaster General; J. P. Willett, late postmaster at Washington, now deceased; John A. Merritt, the present postmaster; Robert Tracewell, Controller, and Henry A. Castle, Auditor for the Post-office Department. The report recommends a thorough investigation of the New York and Washington post offices, and of the administration of the office of First Assistant Postmaster General within the past three years.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort. 20-5

C. W. Volger, a well-known contractor of Frankfort, who has been erecting the new court house at Owensville in Bath county, was stricken with erysipelas while in Lexington on his way to Bath county and was forced to return home.

H. P. Whittaker, a prominent Covington attorney, has been sued for \$15,000 damages and for the refunding of \$3,000 by Mrs. Mary E. Goudy, of Burkesville, Ind., a former client.

### DECLINED.

Maj. Pond Was a Hard Man to Turn Down—His Persistence.

Maj. Pond, who was responsible for introducing to the public some of the greater and lesser lights of the lecture platform, had many an experience full of eccentric humor. Sometimes his charges met him with the greatest good humor. Often those whom he approached felt compelled to bent back his persuasions almost at the point of the bayonet; for nobody was so persuasive as Maj. Pond, says the Youth's Companion. Mr. Kipling replied to tempting proposition:

"I might do it as soon as I had two mortgages on my house, a lien on the horses, a bill of sale on the furniture, and writers' cramp in both hands; but at present I am busy, and contented to go on with the regular writing business."

The great preacher, Charles Spurgeon, repulsed him in an ascending scale of denial. The first reply ran:

"It will only be a waste of time for you to see me, as I am not at all in your line."

The second said: "Your good-natured pertinacity is so admirable that I trust you will not waste it upon an impossible object. The whole United States in bullion would not tempt me to deliver one such lecture."

The third reply was conclusive: "I have, in as plain a manner as possible, declined to make your acquaintance, and I beg, with all courtesy and decision, to do the same again. I know your business, and I have no wish to enter upon it further."

### Animals As Sailors.

A French scientist has made some interesting observations as to the love of different wild animals for the sea. The polar bear, he says, is the only one that takes to the sea, and is quite jolly when aboard ship. All others violently resent a trip on the water, and vociferously give vent to their feelings until seasickness brings silence. The tiger suffers most of all. The mere sight of a ship makes him uncomfortable, and when on board he whines pitifully, his eyes water continually, and he rubs his stomach with his terrible paws. Horses are very bad sailors, and often perish on a sea voyage. Oxen are heroic in their attempts not to give way to sickness. Elephants do not like the sea, but they are amenable to medical treatment.

The Senate will vote on the Cuban Reciprocity Bill today and there is no doubt of the passage of the measure without amendment. Senator Bailey will make the first speech of the week in opposition to the bill. The House will consider the Pension Appropriation Bill. Both houses probably will adjourn on Friday or Saturday for the holidays.

## INDIGESTION

"I was troubled with stomach trouble. Thedford's Black-Draught did me more good in one week than all the doctor's medicine I took in a year."—MRS. SARA E. SHIRFIELD, Ellettsville, Ind.

Thedford's Black Draught quickly invigorates the action of the stomach and cures even chronic cases of indigestion. If you will take a small dose of Thedford's Black Draught occasionally you will keep your stomach and liver in perfect condition.

## THEDFORD'S BLACK-DRAUGHT

More sickness is caused by constipation than by any other disease. Thedford's Black-Draught not only relieves constipation but cures diarrhoea and dysentery and keeps the bowels regular.

All druggists sell 25-cent packages.

"Thedford's Black-Draught is the best medicine to regulate the bowels I have ever used."—MRS. A. M. GRANT, Sneads Ferry, N. C.

## WORLD'S FAIR NOTES.

Many historic structures reproduced for various purposes. Louisiana State Building to be the Cabildo at New Orleans. Festival Hall, 200 feet high, in center of Cascade Gardens. Palace of Varied Industries, 525 by 1,200 feet, cost \$604,600. Palace of Transportation, 559 by 1,300 feet, cost \$696,000. Seventy-five thousand yards of sod laid in Cascade territory. Wireless telegraph station among great electrical exhibits. Great Britain to reproduce the Orangery of Kensington Palace. The Art Palaces, central structure permanent, cost \$1,040,000. The Pike, a mile long, concessions costing more than \$5,000,000. Thirty-five miles of asphalt and gravel roadways in the grounds. Inside Inn, within Exposition grounds, capacity of 6,000 persons. United States government's total appropriation, \$6,473,000. The Hermitage, Andrew Jackson's Tennessee home, reproduced. Map of United States in growing crops, covers area of five acres. Robert Burns' cottage at Ayrshire to be reproduced on grounds. Ninety thousand gallons of water per minute flow over cascades. Palace of Mines and Metallurgy, 525 by 750 feet, cost \$498,000. Forestry, Fish and Game Building, 300 by 600 feet, cost \$171,000. United States Government Building, 250 by 800 feet, cost \$450,000. Three great cascades, largest waterfalls ever constructed by man. The Grand Trianon and Versailles Gardens reproduced by France. Palace of Agriculture, 546 by 1,660 feet, 23 acres, cost \$529,940. Main picture comprises 10 great palaces, arranged in fan shape. Monticello, Thomas Jefferson's home for Virginia State Building. Display of guns of all calibre used by U. S. army and navy. Liberty Bell will be in the rotunda of the Pennsylvania Building. Model of United States warship; real guns and drills by marines. Four miles of standard gauge railroad in Transportation Building. Washington's headquarters at Morristown for New Jersey Building. Largest pipe organ ever built 145 stops; pipes five feet in diameter. General Grant's cabin in St. Louis county erected at Exposition. Hospital perfectly equipped with surgeons, physicians and nurses. Water in lagoon system passes through pumps every five hours. Washington University Buildings, cost \$1,000,000, used by Exposition. Wide waterways beautify the main picture, for gondolas and small craft. California's State Building is a replica of the old Santa Barbara Mission. Temple of Fraternity, 200 by 300 feet, headquarters for fraternal orders. Jerusalem, the Holy City, important parts of which are faithfully reproduced. Rustic house over spring 100 years old; water raised by old-fashioned mill sweep. Germany and America have competitive exhibits of forestry each five acres in extent. Twenty-five best Jersey cows in the world participate in a dairy demonstration. "The Creation," an illusion, under a dome 150 feet in diameter, a feature of the Pike. Germany reproduces the Castle of Charlottenburg. Emperor William prepared the plans. "Galveston Flood," a Pike feature, shows the effects of the great storm and the restoration. France, Germany, Mexico, England, China, Japan and Brazil are each to spend over \$500,000 on elaborate exhibits. A "potato tomato" is one of the oddities that may be seen in the California exhibit at the World's Fair. This new vegetable combines the characteristics of both vegetables.

ALBANY SCHOOLS AT FAIR. The city of Albany, N. Y., will make a complete exhibit of work of her public schools, at the World's Fair. The display has been planned to the smallest details by Charles W. Cole, superintendent of schools, and will be ready to be shipped to St. Louis in January. The exhibit will be divided into four parts. First will come the written work of all grades, from the elementary work to the highest branch taught in the High school. The work will be bound in volumes and about fifty books will be required. The second section will be a large collection of samples of drawing. This exhibit will show in proper sequence the work done by all grades, including that of High school pupils. Superintendent Cole believes that this display alone will show that educational work in Albany has reached the top notch of effectiveness. The third section, and a most interesting one, will be that of kindergarten and manual training work. As it would be practically impossible to ship the actual work of these departments on account of breakage, photographs will be taken of the work and displayed at the exposition. Fifty photographs will be required. The last exhibit will be copies of the latest school reports and administrative papers. Other papers will show how the information contained in these reports is collected.
